## Education:

Bachelor of Medicine and Bachelor of Surgery (MBBS)  
from Liaquat University of Medical & Health Science.

Graduate Year-2021

F.SC from BISEH year 2015

Matriculation from BISEH year 2013

## Work Experience:

**1- Housejob** (8 May 2021 to 8 May 2022)

Dr. Ruth K. M Pfau Civil Hospital Karachi

**3 months rotation in each department.**

**1- Cardiology;** Conducted comprehensive patient assessments, including history-taking and physical examinations. Worked in Cardiac Emergency to provide immediate treatment after diagnosing life threatening emergencies such as Myocardial Infarction, Atrial Fibrillation, SVT, Heart Failure etc.

**2- General Medicine;** Obtained detailed patient histories and conducted thorough physical examinations. Interpreted laboratory and imaging studies to aid in accurate diagnosis and treatment planning. Actively participated in rounds with consultants, presenting cases and engaging in comprehensive discussions. Managed complex patients through a multidisciplinary team (MDT) approach for optimal care. Provided attentive care to patients in both the outpatient department (OPD) and on hospital floors.

**3- Cardiac Surgery;** Obtained detailed patient histories and conducted thorough physical examinations. Interpreted laboratory and imaging studies such as Angiography to aid in accurate diagnosis and treatment planning. Attending and assisting in surgeries such as Coronary artery bypass Graft (CABG), angioplasty and open heart surgeries under supervision of lead surgeons.

**4- General Surgery;** Observed and assisted attending surgeons in various emergency and elective surgeries. Gained hands-on experience in procedures such as abdominal paracentesis, Foley catheter insertion, nasogastric tube placement, and

Arterial and venous blood sampling. Collaborated with the surgical team to ensure seamless patient care and safety.

## 2- Resident Medical Officer Shamsi Hospital Karachi

General Medicine and General Surgery  
**Date - 28-10-2023 till 09-04-2024**  
**(5.5 months)**

In my role as a resident medical officer in this secondary healthcare hospital, I maintained a weekly commitment of approximately 40 hours. My primary responsibilities revolve around the diligent monitoring and assessment of patients admitted to the ward. I closely follow the orders provided by consultants during ward round, meticulously maintaining medicine charts, and monitoring the progress of patients laboratory investigations.

## 3- Resident Medical Officer:

**Royal Institute of Medicine and Surgery (RIMS)**

**Date - 11-06-2023 Currently Working here.**

As a Resident Medical Officer (RMO) at the Royal Institute of Medicine and Surgery (RIMS) in Karachi, working on a mixed floor with cases in General surgery, ENT, General medicine, Neurosurgery, and pediatrics. my duties and responsibilities include:

### 1. Patient Care:

- o Perform initial assessments and ongoing monitoring of patients.
- o Develop and implement treatment plans in consultation with senior doctors.
- o Administer medications, treatments, and perform procedures as required.

### 2. Surgical Assistance:

- o Assist in surgical procedures, ensuring adherence to sterile techniques.
- o Provide preoperative and postoperative care, including patient education and discharge planning.

### 3. Emergency Response:

- o Respond promptly to medical emergencies and stabilize patients as necessary.
- o Conduct rounds to monitor patient progress and update treatment plans.

#### 4. Coordination and Communication:

- o Liaise with multidisciplinary teams, including surgeons, physicians, nurses, and allied health professionals.
- o Communicate effectively with patients and their families about diagnoses, treatment plans, and progress.

#### **Letter of recommendation:**

Prof. Dr. Muhammad Tanveer Alam - Chairperson
