It helps to provide blood to thalassemic patients for their survival

PASSIONS

💎 Giving best in medical field is my passion

💎 Social working by providing awareness and basic needs to needy ones

SUMMARY

A medical professional with a passion for patient care and strong desire to pursue post-graduate training in Radiology

Completed a rigorous house job at JPMC where I gained experience in variety of clinical settings, including emergency room, inpatient wards and operating rooms. Demonstrated strong clinical skills, including the ability to perform physical examination, interpret diagnostic tests and develop treatment plans. Excellent communication skills, both with patients and other healthcare professionals. Willing to work with all members of medical team and listen to their suggestions and input to improve results and maximize patient satisfaction. Seeking a post-graduate trainee in Radiology where I can further develop my skills and knowledge and make a meaningful contribution to the field of Radiology.
