WORK EXPERIENCE

E.P.I Focal Person

Landhi Town, Karachi | June 2023 – June 2024

Program Implementation:

- Successfully led the Expanded Program on Immunization (EPI) in Landhi Town, driving strategic initiatives to increase vaccination coverage and improve public health outcomes within the community.

Data-Driven Decision Making:

- Utilized data analysis to monitor vaccination progress, identify gaps, and implement targeted interventions, resulting in significant improvements in immunization rates and community health awareness.

Union Council Medical Officer

Gadap & Landhi Town, Karachi | 2023

Primary Healthcare Provision:

- Provided comprehensive primary healthcare services, addressing the medical needs of diverse populations and ensuring high standards of patient care within the community.

Public Health Program Management:

- Led the planning and execution of public health initiatives, successfully managing vaccination drives, disease prevention programs, and health education campaigns to improve community well-being.

E.P.I Focal Person

UC 1 Muzaffarabad, Landhi, Karachi | 2023

Immunization Program Leadership:

- Directed the Expanded Program on Immunization (EPI), implementing strategic initiatives that significantly enhanced immunization coverage and reduced vaccine-preventable diseases in the region.

Stakeholder Coordination:

- Collaborated with local healthcare providers, community leaders, and government agencies to optimize resource allocation and ensure the successful delivery of immunization services across the community.

Covex Van Focal Person

District Malir, Karachi | 2022

Mobile Vaccination Leadership:

- Spearheaded the coordination and deployment of mobile vaccination units, significantly boosting community outreach and vaccination coverage in underserved areas.

Community Engagement:

- Strategically engaged with local communities to raise awareness, resulting in increased participation and acceptance of vaccination programs.

A highly skilled and dedicated medical professional with over 5 years of experience in diverse healthcare settings, including emergency response, critical care, and public health management. Expertise in leading COVID-19 response efforts, managing high-dependency units, and coordinating vaccination programs to enhance community health outcomes. Proven track record in strategic crisis management, patient care leadership, and protocol implementation. Adept at collaborating with multidisciplinary teams to ensure optimal patient care and public health safety. Fluent in English, Urdu, and Sindhi, with strong communication and leadership skills.
